ABOUT OUR SERVICES

Toro Enterprises began performing QC testing on construction projects in 2017. Over the last 3 years, we have worked tirelessly at building a highly technical and qualified group of hand-picked staff while growing our scope of services. Our program is developed enough to support your Infrastructure projects, testing contracts, and many other testing and inspection needs. One of our main goals in our testing program is to provide accurate results from our accredited laboratory with enough efficiency to actually make a difference in the day-to-day performance and overall outcome of your projects. With our quality assurance testing program, you will have test results reported on time GUARENTEED, and final reports well before contractor pay items / estimates are due.

For testing or inspection quotes please email: testing@toroenterprises.com or call: (805) 483-4515

CONSTRUCTION SUPPORT SERVICES

Toro Enterprises understands construction from a comprehensive viewpoint. When you choose Toro to provide your testing, you are choosing quality, accuracy, and efficiency while keeping safety at the forefront.

PROJECT STAFFING SERVICES

Toro Enterprises has a highly educated and experienced testing and inspection staff that is supported by our Quality Manager with multiple decades of direct experience in testing, design, inspection, and managing major public works projects in laboratory and field settings. Our staff is directed and managed under his wealth of experience.

LABORATORY TESTING SERVICES

Toro Enterprises has a State-of-the-Art CMT laboratory located in Oxnard, CA. Our laboratory is accredited through AASHTO and Caltrans, participates in testing programs, and is led by our laboratory manager who has two decades of (QA) testing materials on major infrastructure projects including: soil testing, slurry seal testing, aggregate testing, HMA testing, mix design services, and more.

Toro Enterprises provides
outstanding testing and
inspection services

PROBLEM SOLVING

Toro Enterprises has a diverse staff with an accumulation of hundreds of years of construction experience and over 60 years of accumulated testing and inspection experience. There is no problem too large and no project too small for Toro to be your first choice in testing.

FIELD SERVICES

All field inspection work conditions are established by contract with Operating Engineers, Local 12

Toro employs testing technicians that are certified and trained through a number of outside accrediting bodies and agencies. Our technical staff training includes: ACI, NICET, Caltrans, ISSA, NHI-FHWA, and ICC

REPORTS

Toro Enterprises understands the imperative need for accurate results reported in real time, not weeks, or months later. We have implemented unique checks to our report forms to highlight and indicate errors, streamlined our processes to ensure that we are operating at optimum efficiency with maximum quality. Once you work with us, you won't settle for less.
